REFORMATION .- It is very seldom that those who lead a lite of gilded shame ever seek in a life of penitence atonement for ity and cheapness, At WADDEY'S, 74 King street. the errors of the past. Among the most noted and fashionable houses frequented by the fast men and women of the period was the one kept by Jane McCord, in a street not a mile from Fifth avenue, which was furnished in a palatist style, with furniture imported expressive from Paris, at a cost of nearly \$100,000. The carpets, mirrors, &c., were the most cost-british avenue, and described from Paris, at a cost of nearly \$100,000. The carpets, mirrors, &c., were the most cost-british means and women of the period was the one of the period was furnished in a styles, French Calf, Pebb e Goat, Russia Leather, Lasting Pebble Goat Foxed, Lasting French Kid Foxed, Lasting Calf Foxed, Plain Goat Morocco and Calf Boots, at very low prices, at WADDEY'S, 74 King street. palatial style, with furniture imported express-The carpets, mirrors, &c., were the most cost-ly that money could procure. In this house Jaue held high carnival. It appears after leading this life until a very late day, Jane, under the administrations of a well-known clergyman, whose eloquent appeals and solemn warnings had at length their desired effect, determined to abandon her career of shame.
We now find the giddy woman of the world
and the leader of the demi-monde leaving her splendid home and princely income for two small rooms and a moderate competence, just toinette, Ladies' Victoria, Ladies' Paris, Ladies' her house, furniture, jewels and other adornments, valued at upward of \$100,000, and disments, valued at upward of \$100,000, and distributing the entire proceeds, in regular install ments, to the different asylums and other institutions of mercy, under the guardianship of the Sisters of Charity, who are her almoners in this noble work. The former inmates of her house have so been pensioners on her bounty to the extent of thousands of dollarsenough, in fact, to enable them to lead an honest and reputable life in the future, which a number of them, through her example and advice, are already doing.

As charity covers a multitude of sins, it is to be hoped that the life of penitence and prayer that this modern Magdaten has laid down for herself will not only receive its due reward, but will also have the effect of turning many from the broad road to destruction to the straight and narrow path that leads to eternal happiness .- New York Commercial Advertiser.

THE STEWART PARLOR BA E. BURN. ING STOVE. The increasing demand for a first class and base-burning and sel

which has been pressing upo all stove dealers all the provisions of said act required to be so much of late, has induced the inventor and complied with before commencing the business manufacturers of the celebrated STEWART TOVES to turn their attention in that direc tion, and the result is the production of a stove which for beauty of design, economy in the use of fuel, capacity for heating and completeness in all its operations, is unsurpassed by any

stove now in the market.

Amount the advantages claimed are:

Economy in the use of Fuel—This stove being designed to overcome the great objection which has been raised against most of the self feedernow in use, namely, the inordinate consumption of fuel. The Stewart Parlor Base Burner being provided with a brick lined fire pot and complete gas burning arrangements, generates a steady and powerful heat, which by the use of the draft damper is under perfect control, so that the heat may be radiated to suit the temperature of the room and a moderate or strong degree of heat thrown out as the will or pleas ure of the operator may desire, thereby securing a saving of at least one third of the amount

stove. These doors are nicely hinged so that they can be opened at any time and the mica cleaned with the utmost facility, and when the fire is burning a steady and brilliant illumina-tion is produced, thereby securing a cheerfulness and comfort equal to that of an open grate

Cleanliness - Being provided with a Patent Reversible Grate, which is easily shaken or dumped, and a large ash drawer in the base of the stove, no difficulty whatever is experienced from the escape of cinders or ashes into the room while shaking or dumping the grate.

Size of Coal-While in other base burners i constructed with its improved magazine and grate that the larger sizes of coal, ordinarily burned in parlor stoves, may be used with the best results. This is an important advantage, as the larger sized coal is purer and produces s greater hest, and prevents the waste arising from so much fine fuel falling through the grate. This stove is offered to the public with the full belief that it contains better heating and economizing features than any other base burnare requested to give it a thorough examination and satisfy thomselves that it is the best. I refer to the following persons who have the Stew-art Parlor Base Burner in use: D. Themas Loockerman, Mrs. Thomas Burns, T. D. Fendall, esq., Burke & Herbert, City Post Office and others of our city-all of whom unite in recom-

mending it.

I keep also on hand a full assortment of the collaborater. WOOD and COAL STOVES The celebrated STEWART COOKING STOVE, with latest improvements, of the different sizes, furnished.

TESTIMONY OF RECOMMENDATIONS From Medical gentlemen, Professors of the

highest Opthalmic talent in Alexan-dria Va., and the Union. Alexandria, Va, Sept. 16, 1870. It affords much pleasure to state that after a careful examination of the glasses used by Prof. Bernhardt and his peculiar arrangements for adapting them to the improvement of the varied defects and diseases of the human eye, we feel assured that he is a most skillful and accomplished Optician, and we very cordially com-

> ROBT. R. S HOUGH, M. D., Alexandria, September 17, 1870.

Judging from the interview which I have had with Professor M Bernhardt, I believe him to be a skillful Ontician, and from the many certificates which he has from the highest men of the South, that he is an experienced and

reliable Oculist. F. J. MURPHY, M. L.

I have examined the Brazillian Pebble and Australian Crystal Glasses of Dr. M. Bernhardt, and regard them of superior quality and surpassing any that ever came under my ob-servation. Testimonials from the most prominent citizens of the country prove that numbers have been greatly benefitted by the Doctor. I take pleasure in recommending him to any who may need his services. T. H. HAYNES, Pastor of the M. E. Church.

Alexandria, Va., Sept. 19, 1870. [From Ex-Governor Shorter, of Alabama.] Enfaula, Ala., April 7, 1870. Dr. M. Bernhardt, Oculist and Optician: My Dear Sir: I beg to express to you the deep sense of obligation I feel for the professional kindness extended to me, by which, with vent the forming of dandruff; to stimulate the eye sight impaired by years of application and growth of the hair. As a simple and elegant study, I am enabled to write this note with the clearness of vision which I enjoyed in the days of my youth. May your honorable and useful life long be spared, that humanity may enjoy the scientific skill of one so eminently qualified in mind and heart to do good to his fellowmen. I have the honor to be very respectfully yours, JAMES L. ORE, vours, Governor of South Carolina. Portsmouth, Va., Dec. 1, 1865. Prof. Bernhardt :- I owe you a debt of gratitude for the benefit you have rendered me. For many years I have been accustomed to use glasses when reading or writing, and always

read and write for all hours without any pain, and can see objects distant and near through the same glasses with clearness and distinctness that I have not experienced since my youth. I am gratefully yours. JOSEPH H. PLUNKETT,

Pastor of St. Paul's. Testimonials similar to the above may be seen at M. Bernhardt's office from the mest reliable and well known gentlemen of the United States, among whom are:
